EDUCATION

Uniamérica Descomplica   Belo Horizonte, Brazil
Bachelor's in Software Development   *Dec. 2024 – Ongoing*

Bytes4Future   Porto, Portugal
Fullstack Junior Developer Bootcamp   *Jul. 2025 – Nov. 2025*

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frameworks / Libraries: React, Next.js, Angular, Node.js, Express.js, TailwindCSS
Databases: PostgreSQL, MySQL
Tools: Git, GitHub, VS Code
Methodologies: Agile/Scrum, Version Control, Mobile-First Design
Soft Skills: Teamwork, Proactivity, Communication, Adaptability, Time Management, Critical Thinking, Resilience, Continuous Learning, Focus, Determination

PROJECTS

Spotidados —
Spotify Data Visualization Application
- Development of an application that processes thousands of JSON entries from Spotify history entirely on the client side.
- Built with Next.js and React, featuring dynamic filters, real-time artist search, and smooth transitions.
- Implementation of interactive visualizations and performance optimization for large data volumes.
- Technologies: Next.js, React, JavaScript.
- Website: Spotidados — Repository: GitHub

DevRats —
Full Stack Gamified Social Platform
- Development of a gamified social platform transforming coding practice into a daily habit through shared responsibility and healthy competition.
- Implementation of Streaks, Rankings, and real-time Chat.
- Built collaboratively using Next.js 15, React 19, and MongoDB.
- Technologies: Next.js 15, React 19, MongoDB.
- Repository: GitHub   —   Website: DevRats

WatchList —
Movie Management Web Application
- Modern application for managing movie lists with features to add, edit, rate, and organize entries.
- Star-based rating system and separation between watched and unwatched movies.
- Fullstack application built with Next.js, React, MongoDB, and TailwindCSS.
- Technologies: Next.js, React, MongoDB, TailwindCSS.
- Website: WatchList — Repository: GitHub

Personal Portfolio —
Individual Project
- Development of an interactive website to showcase skills and projects.
- Responsive layout using CSS Grid and media queries.
- Integration of external links for GitHub, LinkedIn, and WhatsApp (3+ platforms).
- Technologies: HTML, CSS.
- Website: Portfolio — Repository: GitHub

PlantaAqui —

Sustainable Gamified Application – 24h Hackathon

- Created in only 24 hours during a hackathon, focused on encouraging sustainable habits through gamification.
- Users earn coins by completing eco-friendly actions and can exchange them for green products.
- Encourages collaboration through shared challenges and positive community engagement.
- Technologies: Next.js, React, MongoDB, TailwindCSS.
- Repository: GitHub — Website: PlantaAqui

ACHIEVEMENTS

Winner of the first Hackathon, developing the complete structure of a web application in 24 hours.

Over 200 practical exercises completed in HTML, CSS, and JavaScript at Run Code School.

Top score (100/100) in the HTML Portfolio project, including extra media queries beyond requirements.

Top score in 2 UI/UX challenges at Run Code School's bootcamp.

Implemented 100% of the logic for a Tic-Tac-Toe game in the first JavaScript challenge.

EXPERIENCE

Full Stack Developer   Mar. 2024 – Present

France Ltda   *Remote*

- Development of web applications integrating front-end and back-end using modern frameworks and databases.
- Direct contribution to projects such as **Spotidados**, **DevRats**, **WatchList**, **Personal Portfolio**, **PlantaAqui**, **Barber França**, and **Casinha do Café**.
- Use of technologies including Next.js, React, TypeScript, Express, MongoDB, and TailwindCSS.
- Focus on usability, responsive design, API integration, clean architecture, and best programming practices.

Technical Sales Consultant   Mar. 2022 – Aug. 2024

By Moto   *Belo Horizonte, Brazil*

- Complete management of the sales cycle of premium motorcycles, from prospecting to delivery, ensuring a high-quality experience.
- Exceeded quarterly sales targets by an average of 20% through consultative selling and relationship management.
- Delivered technical solutions and product specifications for high-demand clients.

Technical Sales Consultant   Jan. 2019 – Mar. 2022

Orange BH   *Belo Horizonte, Brazil*

- Specialized in high-performance motorcycles and powersports vehicles, including off-road models.
- Prospecting, needs assessment, and technical product demonstrations.
- Built long-term relationships and applied consultative selling strategies transferable to client-facing IT projects.
